# Amount of private OS/2 users?

- Exact numbers very hard to come by
- Analyzed visitor statistics rpm.netlabs.org
- Filtered out Arca Noae Package Manager users
  - Not everybody uses ANPM
- In June 20, 2020 analyzed 6 weeks of logs
  - Estimated 500 to 600 unique users
  - Possible influence of summer months
  - Probably there are few thousand private users

# Amount of Qt/browser sponsors

- ~100 sponsors who donated to VOICE for browser
- Most money came from 10% of those sponsors
- Conclusion: ratio of users:sponsors is 20 to 1
